

2008 Catana 65

300 000 € refit in 2021!

TRAMONTANE is hull n° 2 of the **Catana 65** Series. Her first owner sailed her in the Mediterranean Sea then in the Caribbean for a little more than a year.

She was then bought back and refitted by the shipyard following the initial owner's order of a new Catana 65. Catana exhibited her in 2009 at the Barcelona Yacht Show. She then was stored on the hard until 2014 when her current owner bought her.

In 2014 she underwent an extensive refit where engines, generator, running & standing rigging, sails, tender, seacocks, etc. have been renewed or serviced.

TRAMONTANE is extremely well built (bottom of the hulls in Twaron, topsides built out of composite, interior built out of sandwich panels with wood veneers). She only weight 30.2 t fully loaded. Carbon mast and bowsprit, sails in Twaron Dyneema, fine hull, bridgedeck well above the water.

Extensive comfort equipment: heater, air conditioning, water maker, generator, 4 cabins with ensuite bathroom.

She has never been chartered. From 2014 to 2018, she was stored on the hard 10 months per year at Catana shipyard.

After her previous refit in 2014, it was time for Tramontane to be refurbished again, so a major refit consisting of several months of work was completed in May 2021.

GENERAL SPECIFICATIONS

Yard : Catana
Type : 65
Year : 2008
Architect : Christophe Barreau
LOA : 19.70m
Beam : 9.56m
Draft : 1.30m / 3.10m
Displacement : 30.200 kg
Engine : 2 x VOLVO 130 HP
Propellers : 2 Foldable 4-blade propellers
Hull Material : Fiberglass foamcore sandwich
Flag : FR
Located : South of France

ENGINES

2 x 130 HP VOLVO - (5 cylinders - 2,4 l turbo diesel)
2 x 4 Blades foldable propellers
2 x Electric engine commands
