

2015 Bali 4.0

In the Bali family, I ask for the little brother! With the 40-footer, the Bali range is now completely homogeneous. Like its bigger brothers the 4.3, 4.5 and 5.4, the Bali 4.0 offers an open space between the cockpit and the saloon. A retractable door on pneumatic struts makes it possible to switch from cozy mode (closed) to lounge mode (open on the mooring)... On the 4.0, we find the forward cockpit and the very pleasant bay windows which disappear completely to provide optimum ventilation. With more than 300 units built in the last 5 years, the second-hand market is now opening up for this bestseller.

GENERAL SPECIFICATIONS

Yard : Bali Catamarans

Type : 4.0

Year : 2015

Architect : Xavier Fay

Interior design : Lasta Design

LOA : 12.35m

Beam : 6.72m

Draft : 1.12m

Light displacement : 8900 kg

Maximum load : 11.800 kg

Fuel tank : 400 ltr

Fresh water tank : 2 x 400 ltr

Black water tank : 2 x 55 ltr

Engine : 2 x NANNI 40 HP

Propellers : 2 3-blade propellers fixe

Drive : Saildrive

Engine hours : 1100 h approx

Last antifouling : Juin 2020

Flag : US

Located : South of France

SAILS & RIGGING
