

2018 Bali 4.3

BALI 4.3

Available end of September 2023

The **Bali 4.3** is a truly spacious and comfortable abode on the sea. Characterised by having a single cockpit/saloon area thanks to a concealed window. The ventilation provided by the total openness, the double cockpit and the spaces that are created give an idea of immensity that has no equal. And as always, built with Catana's solid construction.
