

Bali 4.1 [4 cabin version]

4 CABIN VERSION

RARE OPPORTUNITY! The BALI 4.1 Maxi Lounge is characterised by very ergonomic living spaces which are entirely free of bulkheads. The BALI 4.1 is also the first catamaran in this size to offer a large forward cockpit with sunbathing area, a relaxation area on the coachroof providing breath-taking views, a platform linking the two sugarscoops with wide bench seat aft as well as a level of comfort worthy of a much larger catamaran.
